Aura Expedition

Enhanced technology and expanded capabilities

Built for greater comfort and capability

Expedition enhances the Aura experience with advanced technology and upgraded comfort systems inspired by years of travel and our round-the-world expedition. It is designed for travelers who want greater independence, four-season capability, and elevated comfort in every environment.

- 920Ah LiFePO₄ battery bank
- Cruise N Comfort 12V undermount A/C
- Hydronic heating & heated floors
- Winter-ready plumbing
- Home Assistant smart control
- Roof rack with LED bar & 4 scenic lights
- Owl & Falcon 3.0 suspension
- 100A charging while driving
- Premium bamboo interior
- Black Rhino wheels, KO3 tires

A private luxury retreat that moves

Aura is a high-end adventure van designed for travelers who want true freedom without giving up comfort, design, or a proper bed that is always ready.

Design

Architectural interiors shaped by refined aesthetics, natural materials, and premium craftsmanship.

Technology

Integrated systems designed to work together as one intelligent ecosystem.

Autonomy

Designed for extended off-grid living. Built to support long-distance travel across climates.

Usability

Every surface, cabinet, light, bed, and control is shaped around daily routines on the road.

The systems behind Aura

Integrated technology designed to make life on the road simpler and more comfortable.

Off-Grid 12V Power System

Lithium power for life beyond hookups

Off-Road performance

Enhanced suspension, all-terrain tires, and exterior upgrades designed for remote destinations

Hydronic heating system

Cabin heat, heated floors, instant hot water

Solar Charging

Supports a self-sufficient off-grid lifestyle by keeping your batteries charged

Four Season Ready

12V Air Conditioner

Efficient 12V air conditioning designed for cooling without relying on hookups.

Residential kitchen

Large countertop, induction cooktop and 12V fridge, with a dishwasher and microwave oven as options

Starlink Satellite Internet

SPA bathroom

Flat shower floor with four drains and a space-saving hidden pull-out toilet

True Winterization

Insulated and heated tanks and plumbing systems

Smart Home Integration

All key systems on one screen

Extended Water Capacity

35 gallons fresh and 20 gallons grey water capacity for more time between refills.

Built on a capable AWD Sprinter platform

Aura Expedition starts with a Mercedes-Benz Sprinter AWD 170 inch wheelbase, then adds the exterior hardware needed for rougher roads, darker campsites, and daily access on the move.

Vehicle

Van chassis

Mercedes-Benz Sprinter 2500 AWD
170 inch wheelbase

Transmission

9G-TRONIC 9-speed automatic

Engine

2.0L High-Output Turbo Diesel I4
211 hp, 332 lb-ft torque

Cook, rest, work, shower, and sleep in real comfort.

Aura turns the limited footprint of a van into a complete residential environment.

Full residential kitchen

Designed for everyday living. Generous counter space and residential-style appliances, easy to prepare everything from a quick breakfast to a full dinner on the road.

SPA bathroom with sliding toilet

Our signature sliding toilet disappears when not in use, creating a spacious walk-in shower while preserving full bathroom functionality.

Permanent queen-size bed

A fixed queen-size bed that stays made up, with Flares for extra width and a large garage underneath for gear.

Starlink Satellite Internet

Integrated Starlink internet makes it possible to work remotely, stream content, stay in touch with family, and access online services from some of the most remote destinations.

Power, climate, water, and connectivity work together

Aura is designed so the technical systems stay in the background: comfortable temperatures, useful water capacity, reliable charging, and connected travel without turning daily life into system management.

Smart Home Ecosystem

Monitor and control climate, lighting, power, water systems, and more—all from a single touchscreen

Fully Self-Sufficient Lithium Power

High-capacity lithium batteries, solar, alternator charging, and shore power work together to keep you comfortably off-grid for days.

Hydronic heating

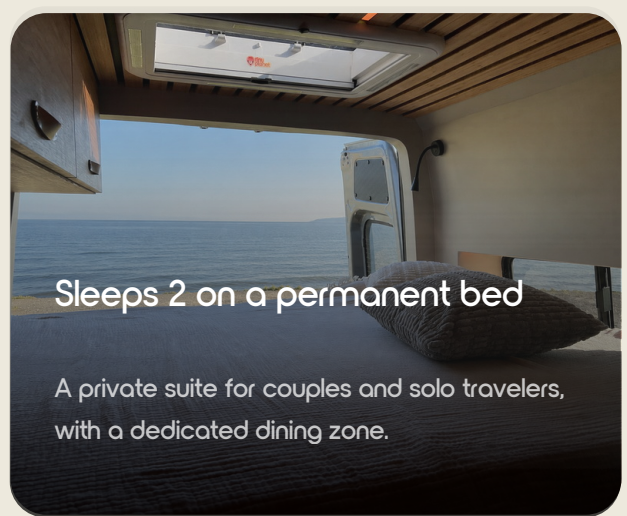

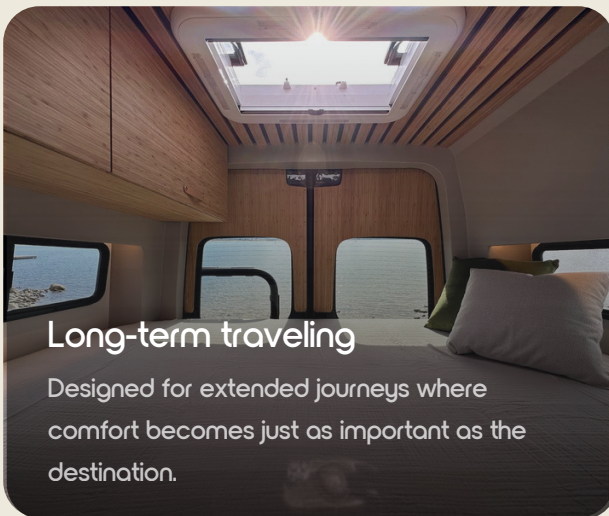

Cabin heat, heated floors and instant hot water in one system.

Off-grid Air Conditioning

A true 12V air conditioning system powered by your van's own battery bank, delivering cooling comfort without generators or campground hookups.

Aura Expedition is built for longer, wilder travel

Choose Aura Expedition when the journey includes multi-week routes, mixed campgrounds and remote stays, year-round weather, and a couple who wants luxury and capability in the same van.
